# Ilya Smiukha

Frontend Developer - bMuse LLC.  
Ukraine

## Summary

Hi there! I'm Optimistic, creative, innovative, and enthusiastic. I even believe in what seems impossible or unattainable. Passionate traveler. I love to make the world better. I have a solid experience as a front-end developer. And I enjoy my job. Frontend Developer with few years of experience leveraging JavaScript to build responsive websites, and interactive features that drive business growth and improve UX.

My main skills is: JS, React, Redux, Webpack, Saga, Axios, Sass, Less, Pusher, hls.js, and WebSockets. Also, I'm familiar with jest and react-testing-library

## Experience

### bMuse LLC

#### Frontend Developer

July 2017 - Present (5 years 4 months)

Запорожье, Запорожская область, Украина

I can't describe Project because of NDA. But my responsibility is develop new features and fix old bugs =) . Also implement logic how to separate project to small independent parts using npm. Creating standalone and integrated components. Rebuild project from Angular.js to React. Save state of app After page refresh and many other interesting things.

### Wonderslab

#### Frontend Developer

December 2015 - July 2017 (1 year 8 months)

Запорожье

Most time I converted PSD mockups to HTML with BEM methodology, SASS, jQuery and native JS. Later I created SPA with Angular.js But looks like it doesn't work anymore.

Индивидуальный предприниматель  
Freelancer

2014 - December 2015 (1 year)

Запорожье, Запорожская область, Украина

My first experience as a developer. I converted PSD files to HTML pages using HTML, CSS, and jQuery. Also, I've used SCSS and LESS.

---

## Education

Zaporizhzhya National Technical University

Master's degree, Computer sciences and technologies · (2010 - 2015)
